MATERIALS

Powder coated, zinc plated steel frame. Spotted Gum timber slats.

FINISHES

Powder coat available in a range of UV stabilised colours. All timber is finished with natural oil, suited to outdoor climates.

OPTIONS

Sizes can be customized. Benches available without 'kink', and in shorter lengths to fit width of table.

Design by TAIT

The unique Kink design is a stunning statement piece suited to residential or commercial applications. Already a popular choice for outdoor public areas when durability is as important as style, furniture can be fixed to a level ground with concealed fixings, so as not to detract from the elegance of the setting. Australian Spotted Gum timber is complemented with a powder coated sheet metal frame.
