Compact Laminate

PRODUCT INFORMATION

Tait use FunderMax exterior high-pressure laminates (HPL) which offer extremely effective durability in outdoor and high use applications. These products are scratch resistant (not scratch-proof), easy to clean, solvent resistant, extremely weather resistant, impact resistant and offer optimal UV light fastness.

CARE & MAINTENANCE

Dust with a soft, non-oily cloth and wipe spills using a damp cloth. For more stubborn stains use hot water and household detergent, then remove with clean water or window cleaning agent. Repeat several times if necessary. To prevent streaks or smears, always rub surface dry with an absorbent clean cloth (preferably paper towels). Never use steel wool, metallic scrapers or strong solvents to clean.

For more information, please visit the [Care & Maintenance](#) section of our website.
