Softline

Designed by Tait

The smooth, curves of Softline define this series of planters, ideal for bringing green living to a space, whether home or work, outdoors or in. Available in a range of sizes and spectrum of colours, Softline has a versatility to suit your chosen flora, fauna and plants. Mobility is ensured owing to handy castors concealed within the planter base (excluding Softline Mini), whilst its fully welded construction allows you to plant directly into the base or hide pots.
