## Maintenance of GUBI chair, wood

### Cleaning and maintenance

For dusting and light cleaning of the wooden surface and frame use a soft, dry cloth.

For further cleaning, use a soft cloth that is firmly wringed in clean water for gently wiping the surface, and then immediately use a dry cloth to wipe the surface again.

If more thorough cleaning is necessary, use soapsuds or washing-up liquid dissolved in water on a firmly wringed cloth. Afterwards, repeat the process with clean water as described above.

Polish with a soft cloth after wiping.

Do not use materials for maintenance that:

- Contain abrasive agents.
- Are basic, acidiferous or organic.

For the best maintenance of the product, protect it against sunlight and heat, and try to keep it away from moisture, grease and other dirt.

Furthermore, protect the surfaces against sharp objects and other that might scratch.

## Maintenance of GUBI chair, HiRek

### Cleaning and maintenance

#### Chair for inside use:

For dusting and light cleaning of the plastic surface and frame use a soft, dry cloth.

For further cleaning, use a soft cloth that is firmly wringed in clean water for gently wiping the surface, and then immediately use a dry cloth to wipe the surface again.

If more thorough cleaning is necessary, use soapsuds or washing-up liquid dissolved in water on a firmly wringed cloth. Afterwards, repeat the process with clean water as described above.

Polish with a soft cloth after wiping.

Do not use materials for maintenance that:

- Contain abrasive agents.
- Are basic, acidiferous or organic.

For the best maintenance of the product, protect it against sunlight and heat, and try to keep it away from moisture, grease and other dirt.

Furthermore, protect the surfaces against sharp objects and other that might scratch.

#### Chair for outdoor use:

The maintenance for outdoor use is the same as for indoor use.

The chair will probably need more frequent and thorough maintenance and cleaning, due to the outdoor conditions. Even though the chair is made for outdoor use, the product should be protected against damaging factors to maintain the quality.

## Maintenance of GUBI chair, upholstered

### Cleaning and maintenance

For cleaning the upholstered surface, first try to brush off the dirt gently. If this is not enough then vacuum the surface.

If further cleaning of the padding is needed, a stain remover is recommended. The cleaning has to be gentle and must always be tested on the most invisible area of the surface before the actual cleaning. Avoid blotches by gentle, circular rubbing towards the stain.

To avoid stains, quickly remove the dirt with a piece of absorbing household wipe and clean with water and colourless washing-up liquid.

Do not use the following products for the padding:

- Undiluted cleaning liquids.
- Bleach.
- Ammoniac.
- Soap for hard surfaces.

For dusting and light cleaning of the frame use a soft, dry cloth.

For further cleaning of the frame, use a soft cloth that is firmly wringed in clean water for gently wiping the surface, and then immediately use a dry cloth to wipe the surface again.

If more thorough cleaning is necessary, use soapsuds or washing-up liquid dissolved in water on a firmly wringed cloth to wipe the seat. Afterwards, repeat the process with clean water as described above.

Polish with a soft cloth after wiping.

Do not use materials for maintenance that:

- Contain abrasive agents.
- Are basic, acidiferous or organic.

For the best maintenance of the product, protect it against sunlight and heat, and try to keep it away from moisture, grease and other dirt.

Furthermore, protect the surfaces against sharp objects and other that might scratch.

## Maintenance of GUBI chair, leather

### Cleaning and maintenance

For dusting and light cleaning of the surfaces use a soft, dry cloth.

For cleaning the surfaces, use a soft cloth that is dry or firmly wringed in clean water and wipe the surface.

If more thorough cleaning of the leather is necessary, use a soft cloth that is firmly wringed in a mild mix of water and soap flakes for gently wiping the surface. Afterwards, repeat the process with clean water as described above.

Polish with a soft cloth after wiping.

If more thorough cleaning of the frame is necessary, use soapsuds or washing-up liquid dissolved in water on a firmly wringed cloth to wipe the seat. Afterwards, repeat the process with clean water as described above.

Polish with a soft cloth after wiping.

Do not use materials for maintenance that:

- Contain abrasive agents.
- Are basic, acidiferous or organic.

For the best maintenance of the product, protect it against sunlight and heat, and try to keep it away from moisture, grease and other dirt.

Furthermore, protect the surfaces against sharp objects and other that might scratch.

## Maintenance of GUBI chair, soft coated

### Cleaning and maintenance

For dusting and light cleaning of the soft coated surface use a soft, dry cloth.

For cleaning the soft coated surface, best results are achieved by means of a brush and concentrated or lightly thinned detergents. Before cleaning, wet surface evenly. Afterwards rinse with water or solvents to avoid a build-up of remainders of detergents, which may, in time, prove difficult to remove.

Dust, fingermarks and stains caused by things water-soluble such as jam, fruit juice etc. are cleaned by means of a soft brush, moist sponge or cloth. Removal is facilitated by using aqueous detergents, washing-up liquid or methylated or mineral spirit.

Stains caused by mineral oil, lubricants, animal or vegetable oils or fats are cleaned by means of a cloth, sponge or brush used with methylated spirit, isopropyl alcohol or mineral spirit.

For dusting and light cleaning of the frame use a soft, dry cloth.

For further cleaning, use a soft cloth that is firmly wringed in clean water for gently wiping the surface, and then immediately use a dry cloth to wipe the surface again.

If more thorough cleaning is necessary, use soapsuds or washing-up liquid dissolved in water on a firmly wringed cloth to wipe the seat. Afterwards repeat the process as described above.

Polish with a soft cloth after wiping.

Do not use materials for cleaning that:

- Contain abrasive agents.
- Are basic, acidiferous or organic.

For the best maintenance of the product, protect it against sunlight and heat, and try to keep it away from moisture, grease and other dirt.

Furthermore, protect the surfaces against sharp objects and other that might scratch.

## Maintenance of GUBI Chair 2 collection

### Cleaning and maintenance

For cleaning the felt surface, first try to brush off the dirt gently. If this is not enough then vacuum the surface.

If further cleaning of the felt is needed, a stain remover is recommended. The cleaning has to be gentle and must always be tested on the most invisible area of the surface before the actual cleaning. Avoid blotches by gentle, circular rubbing towards the stain.

To avoid stains, quickly remove the dirt with a piece of absorbing household wipe and clean with water and colourless washing-up liquid.

For dusting and light cleaning of the frame use a soft, dry cloth.

For further cleaning of the frame, use a soft cloth that is firmly wringed in clean water for gently wiping the surface, and then immediately use a dry cloth to wipe the surface again.

If more thorough cleaning is necessary, use soapsuds or washing-up liquid dissolved in water on a firmly wringed cloth to wipe the seat. Afterwards, repeat the process with clean water as described above.

Polish with a soft cloth after wiping.

Do not use materials for maintenance that:

- Contain abrasive agents.
- Are basic, acidiferous or organic.

For the best maintenance of the product, protect it against sunlight and heat, and try to keep it away from moisture, grease and other dirt.

Furthermore, protect the surfaces against sharp objects and other that might scratch.

## Maintenance of GUBI table series, laminate

### Cleaning and maintenance

For dusting and light cleaning of the laminate surface and frame use a soft, dry cloth.

For further cleaning, use a soft cloth that is firmly wringed in clean water for gently wiping the surface, and then immediately use a dry cloth to wipe the surface again.

If more thorough cleaning is necessary, use soapsuds or washing-up liquid dissolved in water on a firmly wringed cloth. Afterwards repeat the process described above.

Polish with a soft cloth after wiping.

Do not use materials for maintenance that:

- Contain abrasive agents.
- Are basic, acidiferous or organic.

For the best maintenance of the product, protect it against sunlight and heat, and try to keep it away from moisture, grease and other dirt.

To avoid stains, use coasters or mats under flower pots, vases, cups, glasses etc.

Furthermore, protect the surfaces against sharp objects and other that might scratch.

## Maintenance of GUBI table series, soft coated

### Cleaning and maintenance

For dusting and light cleaning of the soft coated surface use a soft, dry cloth.

For cleaning the soft coated surface, best results are achieved by means of a brush and concentrated or lightly thinned detergents. Before cleaning, wet surface evenly. Afterwards rinse with water or solvents to avoid a build-up of remainders of detergents, which may, in time, prove difficult to remove.

Dust, fingermarks and stains caused by things water-soluble such as jam, fruit juice etc. are cleaned by means of a soft brush, moist sponge or cloth. Removal is facilitated by using aqueous detergents, washing-up liquid or methylated or mineral spirit.

Stains caused by mineral oil, lubricants, animal or vegetable oils or fats are cleaned by means of a cloth, sponge or brush used with methylated spirit, isopropyl alcohol or mineral spirit.

For dusting and light cleaning of the frame use a soft, dry cloth.

For further cleaning, use a soft cloth that is firmly wringed in clean water for gently wiping the surface, and then immediately use a dry cloth to wipe the surface again.

If more thorough cleaning is necessary, use soapsuds or washing-up liquid dissolved in water on a firmly wringed cloth to wipe the seat. Afterwards repeat the process as described above.

Polish with a soft cloth after wiping.

Do not use materials for cleaning that:

- Contain abrasive agents.
- Are basic, acidiferous or organic.

For the best maintenance of the product, protect it against sunlight and heat, and try to keep it away from moisture, grease and other dirt.

To avoid stains, use coasters or mats under flower pots, vases, cups, glasses etc.

Furthermore, protect the surfaces against sharp objects and other that might scratch.

## Maintenance of GUBI table series, painted

### Cleaning and maintenance

For dusting and light cleaning of the painted surface and frame use a soft, dry cloth.

For further cleaning, use a soft cloth that is firmly wringed in clean water for gently wiping the surface, and then immediately use a dry cloth to wipe the surface again.

If more thorough cleaning is necessary, use soapsuds or washing-up liquid dissolved in water on a firmly wringed cloth. Afterwards, repeat the process with clean water as described above.

Polish with a soft cloth after wiping.

Do not use materials for maintenance that:

- Contain abrasive agents.
- Are basic, acidiferous or organic.

For the best maintenance of the product, protect it against sunlight and heat, and try to keep it away from moisture, grease and other dirt.

To avoid stains, use coasters or mats under flower pots, vases, cups, glasses etc.

Furthermore, protect the surfaces against sharp objects and other that might scratch.

## Maintenance of GUBI corian table

### Cleaning and maintenance

For dusting and light cleaning of the corian surface and the frame use a soft, dry cloth.

For further cleaning of the corian and the frame, use a soft cloth that is firmly wringed in clean water for gently wiping the surface, and then immediately use a dry cloth to wipe the surface again.

If more thorough cleaning is necessary, use soapsuds or washing-up liquid dissolved in water on a firmly wringed cloth and afterwards repeat the process described above.

Polish with a soft cloth after wiping.

Corian can be damaged by heavy impacts, especially from pointy or sharp objects.

Protect all surfaces against sharp objects and other that might scratch.

Do not use materials for maintenance that:

- Contain abrasive agents.
- Are basic, acidiferous or organic.

To avoid stains, use coasters or mats under flower pots, vases, cups, glasses etc.

For the best maintenance of the product, protect it against sunlight and heat, and try to keep it away from moisture, grease and other dirt.

## Maintenance of GUBI Cinal collection

### Cleaning and maintenance

For dusting and light cleaning of the wood- and aluminium surfaces, use a soft, dry cloth.

For further cleaning, use a soft cloth that is firmly wringed in clean water for gently wiping the surface, and then immediately use a dry cloth to wipe the surface again.

If more thorough cleaning is necessary, use soapsuds or washing-up liquid dissolved in water on a firmly wringed cloth. Afterwards repeat the process described above.

Polish with a soft cloth after wiping.

Do not use materials for maintenance that:

- Contain abrasive agents.
- Are basic, acidiferous or organic.

For the best maintenance of the product, protect it against sunlight and heat, and try to keep it away from moisture, grease and other dirt.

To avoid stains, use coasters or mats under flower pots, vases, cups, glasses etc.

Furthermore, protect the surfaces against sharp objects and other that might scratch.

## Maintenance of Soft Collection

### Cleaning and maintenance

For cleaning the upholstered surface, first try to brush off the dirt gently. If this is not enough then vacuum the surface.

If further cleaning of the padding is needed, a stain remover is recommended. The cleaning has to be gentle and must always be tested on the most invisible area before the actual cleaning. Avoid blotches by gentle, circular rubbing towards the stain.

To avoid stains, quickly remove the dirt with a piece of absorbing household wipe and clean with water and colourless washing-up liquid.

Do not use the following products for the padding:

- Undiluted cleaning preparation.
- Bleach.
- Ammoniac.
- Soap for hard surfaces.

For dusting and light cleaning of the metallic parts use a soft, dry cloth.

For further cleaning, use a soft cloth that is firmly wringed in clean water for gently wiping the surface, and then immediately use a dry cloth to wipe the surface again.

If more thorough cleaning is necessary, use soapsuds or washing-up liquid dissolved in water on a firmly wringed cloth to wipe the seat. Afterwards, repeat the process with clean water as described above.

Polish with a soft cloth after wiping.

Do not use materials for maintenance that:

- Contain abrasive agents.
- Are basic, acidiferous or organic.

For the best maintenance of the product, protect it against sunlight and heat, and try to keep it away from moisture, grease and other dirt.

Furthermore, protect the surfaces against sharp objects and other that might scratch.

## Maintenance of GOS table, wood

### Cleaning and maintenance

For dusting and light cleaning of the wooden and the aluminium surfaces use a soft, dry cloth.

For further cleaning, use a soft cloth that is firmly wringed in clean water for gently wiping the surface, and then immediately use a dry cloth to wipe the surface again.

If more thorough cleaning is necessary, use soapsuds or washing-up liquid dissolved in water on a firmly wringed cloth. Afterwards, repeat the process with clean water as described above.

Polish with a soft cloth after wiping.

Do not use materials for maintenance that:

- Contain abrasive agents.
- Are basic, acidiferous or organic.

For the best maintenance of the product, protect it against sunlight and heat, and try to keep it away from moisture, grease and other dirt.

To avoid stains, use coasters or mats under flower pots, vases, cups, glasses etc.

Furthermore, protect the surfaces against sharp objects and other that might scratch.

## Maintenance of GOS table, laminate

### Cleaning and maintenance

For dusting and light cleaning of the laminate and the aluminium surfaces use a soft, dry cloth.

For further cleaning, use a soft cloth that is firmly wringed in clean water for gently wiping the surface, and then immediately use a dry cloth to wipe the surface again.

If more thorough cleaning is necessary, use soapsuds or washing-up liquid dissolved in water on a firmly wringed cloth. Afterwards repeat the process described above.

Polish with a soft cloth after wiping.

Do not use materials for maintenance that:

- Contain abrasive agents.
- Are basic, acidiferous or organic.

For the best maintenance of the product, protect it against sunlight and heat, and try to keep it away from moisture, grease and other dirt.

To avoid stains, use coasters or mats under flower pots, vases, cups, glasses etc.

Furthermore, protect the surfaces against sharp objects and other that might scratch.

## Maintenance of GOS table, painted

### Cleaning and maintenance

For dusting and light cleaning of the painted and the aluminium surfaces use a soft, dry cloth.

For further cleaning, use a soft cloth that is firmly wringed in clean water for gently wiping the surface, and then immediately use a dry cloth to wipe the surface again.

If more thorough cleaning is necessary, use soapsuds or washing-up liquid dissolved in water on a firmly wringed cloth. Afterwards, repeat the process with clean water as described above.

Polish with a soft cloth after wiping.

Do not use materials for maintenance that:

- Contain abrasive agents.
- Are basic, acidiferous or organic.

For the best maintenance of the product, protect it against sunlight and heat, and try to keep it away from moisture, grease and other dirt.

To avoid stains, use coasters or mats under flower pots, vases, cups, glasses etc.

Furthermore, protect the surfaces against sharp objects and other that might scratch.

## Maintenance of GOS table, linoleum

### Cleaning and maintenance

For dusting and light cleaning of the linoleum surface use a soft, dry cloth.

For cleaning the linoleum surface, use a soft cloth that is dry or firmly wringed in clean water and wipe the surface.

If more thorough cleaning is necessary, use a soft cloth that is firmly wringed in a mild mix of water and soap flakes for gently wiping the surface. And Afterwards, repeat the process with clean water as described above.

Polish with a soft cloth after wiping.

To dust and clean the aluminium surfaces use a soft, dry cloth to gently wipe the surfaces.

For further cleaning, use a soft cloth that is firmly wringed in clean water for gently wiping the surface, and then immediately use a dry cloth to wipe the surface again.

If more thorough cleaning is necessary, use soapsuds or washing-up liquid dissolved in water on a firmly wringed cloth. Afterwards, repeat the process with clean water as described above.

Polish with a soft cloth after wiping.

Do not use materials for maintenance that:

- Contain abrasive agents.
- Are basic, acidiferous or organic.

For the best maintenance of the product, protect it against sunlight and heat, and try to keep it away from moisture, grease and other dirt.

To avoid stains, use coasters or mats under flower pots, vases, cups, glasses etc.

Furthermore, protect the surfaces against sharp objects and other that might scratch.

## Maintenance of GOS2 table, wood

### Cleaning and maintenance

For dusting and light cleaning of the wooden surface and the frame use a soft, dry cloth.

For further cleaning, use a soft cloth that is firmly wringed in clean water for gently wiping the surface, and then immediately use a dry cloth to wipe the surface again.

If more thorough cleaning is necessary, use soapsuds or washing-up liquid dissolved in water on a firmly wringed cloth. Afterwards, repeat the process with clean water as described above.

Polish with a soft cloth after wiping.

Do not use materials for maintenance that:

- Contain abrasive agents.
- Are basic, acidiferous or organic.

For the best maintenance of the product, protect it against sunlight and heat, and try to keep it away from moisture, grease and other dirt.

To avoid stains, use coasters or mats under flower pots, vases, cups, glasses etc.

Furthermore, protect the surfaces against sharp objects and other that might scratch.

## Maintenance of GOS2 table, laminate

### Cleaning and maintenance

For dusting and light cleaning of the laminate surface and the frame use a soft, dry cloth.

For further cleaning, use a soft cloth that is firmly wringed in clean water for gently wiping the surface, and then immediately use a dry cloth to wipe the surface again.

If more thorough cleaning is necessary, use soapsuds or washing-up liquid dissolved in water on a firmly wringed cloth. Afterwards repeat the process as described above.

Polish with a soft cloth after wiping.

Do not use materials for maintenance that:

- Contain abrasive agents.
- Are basic, acidiferous or organic.

For the best maintenance of the product, protect it against sunlight and heat, and try to keep it away from moisture, grease and other dirt.

To avoid stains, use coasters or mats under flower pots, vases, cups, glasses etc.

Furthermore, protect the surfaces against sharp objects and other that might scratch.

## Maintenance of GOS2 table, painted

### Cleaning and maintenance

For dusting and light cleaning of the painted surface and the frame use a soft, dry cloth.

For further cleaning, use a soft cloth that is firmly wringed in clean water for gently wiping the surface, and then immediately use a dry cloth to wipe the surface again.

If more thorough cleaning is necessary, use soapsuds or washing-up liquid dissolved in water on a firmly wringed cloth. Afterwards, repeat the process with clean water as described above.

Polish with a soft cloth after wiping.

Do not use materials for maintenance that:

- Contain abrasive agents.
- Are basic, acidiferous or organic.

For the best maintenance of the product, protect it against sunlight and heat, and try to keep it away from moisture, grease and other dirt.

To avoid stains, use coasters or mats under flower pots, vases, cups, glasses etc.

Furthermore, protect the surfaces against sharp objects and other that might scratch.

## Maintenance of GOS2 table, soft coated

### Cleaning and maintenance

For dusting and light cleaning of the soft coated surface and the frame use a soft, dry cloth.

For cleaning the soft coated surface, best results are achieved by means of a brush and concentrated or lightly thinned detergents. Before cleaning, wet surface evenly. Afterwards rinse with water or solvents to avoid a build-up of remainders of detergents, which may, in time, prove difficult to remove.

Dust, fingermarks and stains caused by things water-soluble such as jam, fruit juice etc. are cleaned by means of a soft brush, moist sponge or cloth. Removal is facilitated by using aqueous detergents, washing-up liquid or methylated or mineral spirit.

Stains caused by mineral oil, lubricants, animal or vegetable oils or fats are cleaned by means of a cloth, sponge or brush used with methylated spirit, isopropyl alcohol or mineral spirit.

For dusting and light cleaning of the metallic parts use a soft, dry cloth.

For further cleaning, use a soft cloth that is firmly wringed in clean water for gently wiping the surface, and then immediately use a dry cloth to wipe the surface again.

If more thorough cleaning is necessary, use soapsuds or washing-up liquid dissolved in water on a firmly wringed cloth to wipe the seat. Afterwards repeat the process as described above.

Polish with a soft cloth after wiping.

Do not use materials for cleaning that:

- Contain abrasive agents.
- Are basic, acidiferous or organic.

For the best maintenance of the product, protect it against sunlight and heat, and try to keep it away from moisture, grease and other dirt.

To avoid stains, use coasters or mats under flower pots, vases, cups, glasses etc.

Furthermore, protect the surfaces against sharp objects and other that might scratch.

## Maintenance of GOS3 table, wood

### Cleaning and maintenance

For dusting and light cleaning of the surfaces use a soft, dry cloth.

For further cleaning, use a soft cloth that is firmly wringed in clean water for gently wiping the surface, and then immediately use a dry cloth to wipe the surface again.

If more thorough cleaning is necessary, use soapsuds or washing-up liquid dissolved in water on a firmly wringed cloth. Afterwards, repeat the process with clean water as described above.

Polish with a soft cloth after wiping.

Do not use materials for maintenance that:

- Contain abrasive agents.
- Are basic, acidiferous or organic.

For the best maintenance of the product, protect it against sunlight and heat, and try to keep it away from moisture, grease and other dirt.

To avoid stains, use coasters or mats under flower pots, vases, cups, glasses etc.

Furthermore, protect the surfaces against sharp objects and other that might scratch.

## Maintenance of GOS3 table, painted

### Cleaning and maintenance

For dusting and light cleaning of the surfaces use a soft, dry cloth.

For further cleaning, use a soft cloth that is firmly wringed in clean water for gently wiping the surface, and then immediately use a dry cloth to wipe the surface again.

If more thorough cleaning is necessary, use soapsuds or washing-up liquid dissolved in water on a firmly wringed cloth. Afterwards, repeat the process with clean water as described above.

Polish with a soft cloth after wiping.

Do not use materials for maintenance that:

- Contain abrasive agents.
- Are basic, acidiferous or organic.

For the best maintenance of the product, protect it against sunlight and heat, and try to keep it away from moisture, grease and other dirt.

To avoid stains, use coasters or mats under flower pots, vases, cups, glasses etc.

Furthermore protect the surfaces against sharp objects and others similar those are to scratch.

## Maintenance of GOS3 table, soft coated

### Cleaning and maintenance

For dusting and light cleaning of the soft coated surface use a soft, dry cloth.

For cleaning the soft coated surface, best results are achieved by means of a brush and concentrated or lightly thinned detergents. Before cleaning wet surface evenly. Afterwards rinse with water or solvents to avoid a build-up of remainders of detergents, which may, in time, prove difficult to remove.

Dust, fingermarks and stains caused by things water-soluble such as jam, fruit juice etc. are cleaned by means of a soft brush, moist sponge or cloth. Removal is facilitated by using aqueous detergents, washing-up liquid or methylated or mineral spirit.

Stains caused by mineral oil, lubricants, animal or vegetable oils or fats are cleaned by means of a cloth, sponge or brush used with methylated spirit, isopropyl alcohol or mineral spirit.

Do not use materials for cleaning that:

- Contain abrasive agents.
- Are basic, acidiferous or organic.

For the best maintenance of the product, protect it against sunlight and heat, and try to keep it away from moisture, grease and other dirt.

Furthermore, protect the surfaces against sharp objects and other that might scratch.

To avoid stains, use coasters or mats under flower pots, vases, cups, glasses etc.

## Maintenance of GUBI Go-Desk, wood

### Cleaning and maintenance

For dusting and light cleaning of the surfaces use a soft, dry cloth.

For further cleaning, use a soft cloth that is firmly wringed in clean water for gently wiping the surface, and then immediately use a dry cloth to wipe the surface again.

If more thorough cleaning is necessary, use soapsuds or washing-up liquid dissolved in water on a firmly wringed cloth. Afterwards, repeat the process with clean water as described above.

Polish with a soft cloth after wiping.

Do not use materials for maintenance that:

- Contain abrasive agents.
- Are basic, acidiferous or organic.

For the best maintenance of the product, protect it against sunlight and heat, and try to keep it away from moisture, grease and other dirt.

To avoid stains, use coasters or mats under flower pots, vases, cups, glasses etc.

Furthermore, protect the surfaces against sharp objects and other that might scratch.

## Maintenance of GUBI Go-Desk, painted

### Cleaning and maintenance

For dusting and light cleaning of the surfaces use a soft, dry cloth.

For further cleaning, use a soft cloth that is firmly wringed in clean water for gently wiping the surface, and then immediately use a dry cloth to wipe the surface again.

If more thorough cleaning is necessary, use soapsuds or washing-up liquid dissolved in water on a firmly wringed cloth. Afterwards, repeat the process with clean water as described above.

Polish with a soft cloth after wiping.

Do not use materials for maintenance that:

- Contain abrasive agents.
- Are basic, acidiferous or organic.

For the best maintenance of the product, protect it against sunlight and heat, and try to keep it away from moisture, grease and other dirt.

To avoid stains, use coasters or mats under flower pots, vases, cups, glasses etc.

Furthermore, protect the surfaces against sharp objects and other that might scratch.

## Maintenance of GUBI Go-Desk, laminate

### Cleaning and maintenance

For dusting and light cleaning of the surfaces use a soft, dry cloth.

For further cleaning, use a soft cloth that is firmly wringed in clean water for gently wiping the surface, and then immediately use a dry cloth to wipe the surface again.

If more thorough cleaning is necessary, use soapsuds or washing-up liquid dissolved in water on a firmly wringed cloth. Afterwards, repeat the process with clean water as described above.

Polish with a soft cloth after wiping.

Do not use materials for maintenance that:

- Contain abrasive agents.
- Are basic, acidiferous or organic.

For the best maintenance of the product, protect it against sunlight and heat, and try to keep it away from moisture, grease and other dirt.

To avoid stains, use coasters or mats under flower pots, vases, cups, glasses etc.

Furthermore, protect the surfaces against sharp objects and other that might scratch.

## Maintenance of GUBI Go-Desk, linoleum

### Cleaning and maintenance

For dusting and light cleaning of the linoleum surfaces use a soft, dry cloth.

For cleaning the linoleum surface, use a soft cloth that is dry or firmly wringed in clean water and wipe the surface.

If more thorough cleaning is necessary, use a soft cloth that is firmly wringed in a mild mix of water and soap flakes for gently wiping the surface. Afterwards, repeat the process with clean water as described above.

Polish with a soft cloth after wiping.

To clean the metallic surfaces, use a soft, dry cloth to gently wipe the surface.

For further cleaning, use a soft cloth that is firmly wringed in clean water for gently wiping the surface, and then immediately use a dry cloth to wipe the surface again.

If more thorough cleaning is necessary, use soapsuds or washing-up liquid dissolved in water on a firmly wringed cloth. Afterwards, repeat the process with clean water as described above.

Polish with a soft cloth after wiping.

Do not use materials for maintenance that:

- Contain abrasive agents.
- Are basic, acidiferous or organic.

For the best maintenance of the product, protect it against sunlight and heat, and try to keep it away from moisture, grease and other dirt.

To avoid stains, use coasters or mats under flower pots, vases, cups, glasses etc.

Furthermore, protect the surfaces against sharp objects and other that might scratch.

## Maintenance of GUBI Go-Desk, soft coated

### Cleaning and maintenance

For dusting and light cleaning of the soft coated surface use a soft, dry cloth.

For cleaning the soft coated surface, best results are achieved by means of a brush and concentrated or lightly thinned detergents. Before cleaning wet surface evenly. Afterwards rinse with water or solvents to avoid a build-up of remainders of detergents, which may, in time, prove difficult to remove.

Dust, fingermarks and stains caused by things water-soluble such as jam, fruit juice etc. are cleaned by means of a soft brush, moist sponge or cloth. Removal is facilitated by using aqueous detergents, washing-up liquid or methylated or mineral spirit.

Stains caused by mineral oil, lubricants, animal or vegetable oils or fats are cleaned by means of a cloth, sponge or brush used with methylated spirit, isopropyl alcohol or mineral spirit.

To clean the metallic surfaces, use a soft, dry cloth to gently wipe the surface.

For further cleaning, use a soft cloth that is firmly wringed in clean water for gently wiping the surface, and then immediately use a dry cloth to wipe the surface again.

If more thorough cleaning is necessary, use soapsuds or washing-up liquid dissolved in water on a firmly wringed cloth. Afterwards, repeat the process with clean water as described above.

Polish with a soft cloth after wiping.

Do not use materials for cleaning that:

- Contain abrasive agents.
- Are basic, acidiferous or organic.

For the best maintenance of the product, protect it against sunlight and heat, and try to keep it away from moisture, grease and other dirt.

To avoid stains, use coasters or mats under flower pots, vases, cups, glasses etc.

Furthermore, protect the surfaces against sharp objects and other that might scratch.

## Maintenance of GOS Storage, wood

### Cleaning and maintenance

For dusting and light cleaning of the surfaces use a soft, dry cloth.

For further cleaning, use a soft cloth that is firmly wringed in clean water for gently wiping the surface, and then immediately use a dry cloth to wipe the surface again.

If more thorough cleaning is necessary, use soapsuds or washing-up liquid dissolved in water on a firmly wringed cloth. Afterwards, repeat the process with clean water as described above.

Polish with a soft cloth after wiping.

Do not use materials for maintenance that:

- Contain abrasive agents.
- Are basic, acidiferous or organic.

For the best maintenance of the product, protect it against sunlight and heat, and try to keep it away from moisture, grease and other dirt.

To avoid stains, use coasters or mats under flower pots, vases, cups, glasses etc.

Furthermore, protect the surfaces against sharp objects and other that might scratch.

## Maintenance of GOS Storage, painted

### Cleaning and maintenance

For dusting and light cleaning of the surfaces use a soft, dry cloth.

For further cleaning, use a soft cloth that is firmly wringed in clean water for gently wiping the surface, and then immediately use a dry cloth to wipe the surface again.

If more thorough cleaning is necessary, use soapsuds or washing-up liquid dissolved in water on a firmly wringed cloth. Afterwards, repeat the process with clean water as described above.

Polish with a soft cloth after wiping.

Do not use materials for maintenance that:

- Contain abrasive agents.
- Are basic, acidiferous or organic.

For the best maintenance of the product, protect it against sunlight and heat, and try to keep it away from moisture, grease and other dirt.

To avoid stains, use coasters or mats under flower pots, vases, cups, glasses etc.

Furthermore, protect the surfaces against sharp objects and other that might scratch.

## Maintenance of GOS Storage, soft coated

### Cleaning and maintenance

For dusting and light cleaning of the soft coated surface use a soft, dry cloth.

For cleaning the soft coated surface, best results are achieved by means of a brush and concentrated or lightly thinned detergents. Before cleaning wet surface evenly. Afterwards rinse with water or solvents to avoid a build-up of remainders of detergents, which may, in time, prove difficult to remove.

Dust, fingermarks and stains caused by things water-soluble such as jam, fruit juice etc. are cleaned by means of a soft brush, moist sponge or cloth. Removal is facilitated by using aqueous detergents, washing-up liquid or methylated or mineral spirit.

Stains caused by mineral oil, lubricants, animal or vegetable oils or fats are cleaned by means of a cloth, sponge or brush together with methylated spirit, isopropyl alcohol or mineral spirit.

To clean the metallic surfaces, use a soft, dry cloth to gently wipe the surface.

For further cleaning, use a soft cloth that is firmly wringed in clean water for gently wiping the surface, and then immediately use a dry cloth to wipe the surface again.

If more thorough cleaning is necessary, use soapsuds or washing-up liquid dissolved in water on a firmly wringed cloth. Afterwards, repeat the process with clean water as described above.
