CUSTOM ACRYLIC SCREEN OPTION SHOWN

SIMPLE, ELEGANT, FUNCTIONAL

The light elegant lines of the modular steel structure support the shaping of space to meet the changing needs of organizations, teams and individuals. A simple menu of components and elements, together with the easy integration of Steelcase worktools enables the customizing of workspaces to support individual ways of working, while creating space-efficient working environments.

EXCEPTIONAL USE OF SPACE

FrameOne offers a fresh approach to optimizing the use of workplace space and real estate in the high-density working environments often found in Asian workplaces. The light structural components provide the perfect frame for shaping an open and inviting workplace that is welcoming, flexible and very space efficient. Its modular structure and integrated cable management enable the customizing of workspaces to support diverse ways of working for both permanent and mobile workers.

EXTEND THE POSSIBILITIES

FrameOne extends space efficiency into the management, meeting and training spaces, with an array of options for creating desks and meeting tables to support individual and team work. Offering clear worksurfaces and space efficient legs and structure that provide unobstructed legroom beneath the worksurface, they blend elegance with functionality.

SINGLE-SIDED BENCH

The single-sided bench allows designers to work around building and space constraints. It seamlessly connects to a dual-sided bench providing flexibility throughout the floor plan. It can also be used in aiseways or against walls.

EXPAND WORK INTO 3-DIMENSIONS

The strong steel structure supports the simple integration of Steelcase worktools, to expand the use of space both above and below the worksurface. The ability to add multiple monitors, open and closed storage, organizational tools and screens enables the creation of flexible and efficient workspaces, that meet the diverse and changing needs of dynamic organizations.

ORGANIZE YOUR SPACE

Tailor FrameOne to the needs of individual workers and the work at hand with adjustable privacy components, flexible storage, versatile computer support and an innovative collection of worktools.

Eyesite Monitor Arms
Fixed or adjustable arms for supporting single through to multiple screens above the workspace, for efficient use of space and sharing of information.

SOTO shelf, Utility Box and Tool Box
An integrated rail allows the convenient placement of small boxes and shelves above the workspace for handy access to everyday tools and resources.

SOTO LED Task light
The slimline aesthetic is unobtrusive when not in use, yet the 4-watt LED provides bright spot lighting when required with minimal power consumption.

Divisio
The movable sidescreen let you instantly personalize your space and privacy, while enabling collaboration with colleagues. The magnetic surface keeps items visible.

Functional Screen
High enough to provide privacy and a sense of boundary, the integrated pocket is great for keeping frequently used documents close at hand.

SOTO II Mobile Caddy
Anticipates the need to stow personal items and workbags. In-line casters make it easy to roll out to drop in bags or backpacks, as well as creating a sense of boundary.

Mid Storage
Raised above the workspace, it blends privacy while seated with convenient storage for tools and resources and display of information.

Cable Tray
Integrated into the structure below the workspace, it keeps cabling out of the way while providing easy access for cable management.
