

campfire additions

The way we work is changing. Technology has shifted the landscape from a one-size-fits-all workplace, to one that comes with the expectation of both palette of place and palette of posture.

Created to support lounge postures, foster vibrant office culture and promote collaboration, turnstone's Campfire additions make it easy to come together around new ideas.

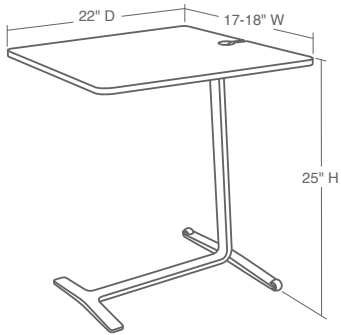

Skate Table's wheeled, lightweight construction helps you lean back and work at a station that adjusts to you rather than you adjusting to your surroundings.

Pairing perfectly with Campfire Half Lounge, **Slim Table** powers technology, keeping you engaged and productive throughout your workday.

Footrest is designed to support your feet and legs, while encouraging movement throughout the day.

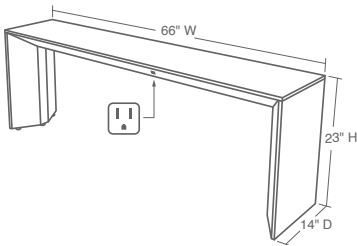

statement of line

Skate Table

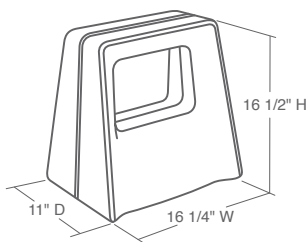

- Two directional wheels allows table to easily slide back & forth
- Low-profile base slides under campfire lounge so table can get close to user
- Cord grommet keeps power cord in its place
- Functionally rated to work with up to 40 lbs. on the table

Slim Table

- Great complement to lounge settings
- Two power outlets (one on each side) provide charging for mobile devices
- Ideal surface to set drink, notebook, phone and as mousing surface
- Tested for use as short-term guest seat
- Can also be used as a return for workstation benching application

Footrest

- Weighs only 2.25 lbs.
- Constructed of durable expanded polypropelene
- Unique shape and weight allows user to frequently adjust foot support in lounge posture, seated at a desk or at standing height
- The band around the outside allows a pop of color, if desired
