THE PARADISET COLLECTION

Designed by Kerstin Hörlin-Holmquist

### PRODUCT

Item no.: 3700x-xx-xx  
+ style code

### DESCRIPTION

the pouffe - is part of the The Paradiset Collection, designed by Kerstin Hörlin-Holmquist in 1956. This timeless and iconic collection was created during Holmquist's employment with NK - Nordiska Kompaniet in the 1950's and holds a soft simplicity. All designs are unique in their appearance - light, clean lines and gracious with an air of romance.

She named her pieces inspired by "Paradiset" (Swedish name for Eden or Paradise). The first piece was - the feminine Eva Chair and later followed its counterpart, the Adam Chair. To compliment the two lounge chairs she also created a sofa - the Paradiset sofa.

The pouffe is fully upholstered with block of foam on plywood and matching piping and buttons and with solid wood legs in mat lacquered oak, walnut or black stained wood. The pouffe fits to both the Adam and Eva chair.

## CLEANING AND MAINTENANCE

For cleaning the upholstered surface, first try to brush off the dirt gently. If this is not enough then vacuum the surface.

If further cleaning of the padding is needed, a stain remover is recommended. The cleaning has to be gentle and must always be tested on the most invisible area of the surface before the actual cleaning. Avoid blotches by gentle, circular rubbing towards the stain.

To avoid stains, quickly remove the dirt with a piece of absorbing household wipe and clean with water and colourless washing-up liquid.

Do not use the following products for the padding:

- Undiluted cleaning liquids.
- Bleach.
- Ammoniac.
- Soap for hard surfaces.

For dusting and light cleaning of the wooden surface and frame use a soft, dry cloth.

For further cleaning, use a soft cloth that is firmly wrung in clean water for gently wiping the surface, and then immediately use a dry cloth to wipe the surface again.

If more thorough cleaning is necessary, use a mild detergent or washing-up liquid dissolved in water on a firmly wrung cloth. Afterwards, repeat the process with clean water as described above.

Polish with a soft cloth after wiping.

Do not use materials for maintenance that:

- Contain abrasive agents.
- Are basic, acidiferous or organic.

For the best maintenance of the product, protect it against sunlight and heat, and try to keep it away from moisture, grease and other dirt.

Furthermore, protect the surfaces against sharp objects and other that might scratch.
