Moon Coffee Table

Space Copenhagen is the designer behind the classic Moon Coffee Table; a series of organic rounded tables for both domestic and public spaces. The interplay between the beautiful solid oak table top and the smooth half – or full moon shaped base, with bevelled surface, serving as structure and ornament, creates a simple yet strong identity for the design. The result is an elegant table with clear references to traditional Danish carpentry, where the tribute of marriage between design and craftsmanship is in focus.

Space Copenhagen

Space Copenhagen was established in 2005 by the Danish designers Signe Bindslev Henriksen and Peter Bundgaard Rützou, both graduates of the Royal Danish Academy of Fine Arts, School of Architecture. The design partnership is known for their way of defying habits and employing a sincere personal vision to their design.

Space Copenhagen has undertaken a wide range of projects, including everything from interior design to furniture and applied art as well as artistic installations and art direction. These diverse areas are especially reflective of their ability to transcend many roles and apply their emotional method of working to a number of projects or products.

The duo has an impressive record of interior design projects for some of the most prestigious restaurants like NOMA and Geranium in Copenhagen as well as designing objects for Georg Jensen and Fredericia Furniture, among others.
