Ology
height-adjustable desk

Steelcase

Designed for Wellbeing

The health of any organization is dependent on the wellbeing of its employees. A health-conscious workplace safeguards the company's most significant investment—its people—ensuring maximum efficiency and innovation.

The Ology™ height-adjustable desk is designed to support the physiology and biology of workers to make the workplace a more health-conscious environment.

Workplace Wellbeing: A Global Challenge

Maintaining wellbeing in the workplace is a challenge. Workers are experiencing neck and back pain, resulting in lack of energy and focus, along with other negative effects of sedentary workstyles. With an increasingly mobile workforce, employees are sharing desks more frequently, exposing workers to millions of microbes on office worksurfaces.

This negative effect on workers' physiology and biology can lead to increased absenteeism, decreased productivity, chronic disability and a decline in organizational performance.

A desk that supports the physical wellbeing of each individual also supports the wellbeing of the business, making it a key asset to any organization.

PROGRAMMABLE USER INTERFACE

Adjust the worksurface to any height or to one of four programmed heights, including a comfortable standing collaboration height.

INTUITIVE USER INTERFACE

Press a flush-mount button to adjust the worksurface height anywhere from seated to standing height. Available with or without antimicrobial treatment.

Encouraging Healthy Postures

Adults spend 50%–70% of their time sitting,¹ which can lead to significant decline in overall physiological health. With this in mind, Ology's intuitive design encourages posture changes throughout the day. Two user interface options enable workers to quickly and quietly change positions without disruption of individual or office workflows.

Simplifying Collaboration

To accommodate impromptu stand-up meetings, Ology automatically adjusts with the touch of a button. Whether quickly touching base or engaging in a spur-of-the-moment brainstorming session, workers can be face-to-face in an instant, encouraging collaboration and movement throughout the day.

Supporting Diverse Workstyles

Different workstyles require different ergonomic support—and Ology provides just that. The integrated rail supports adjustable monitor arms, lighting and worktools, while power and data remain within reach.

Integrated rail with SOTO shelf and access to power

Integrated rail with screen and access to power

OPTIONAL ANTIMICROBIAL PROTECTION
Offered on frequently touched areas of the worksurface, such as the desk pad, the integrated soft edge or the intuitive user interface.

Health-Conscious Environment

10 MILLION

Eighty percent of infections are transmitted by touch—which makes the workplace a haven for microbes. In order to support the wellbeing of workers, Ology offers optional built-in germ-fighting technology on select worksurface touchpoints. Bactiblock® is a naturally sourced, highly efficient antimicrobial protection that can be molded into the desk's most-touched components. This durable, long-lasting solution supports the health of workers far into the future.

germs are found on the typical desk.

STATEMENT OF LINE

Height range:

- 22.6"–48.7"
- Meets BIFMA G1-2013
- Obstruction sensing

Corner style:

- Square or radius

Top shapes:

- a. Rectangular D: 23", 24", 29", 30", 35", 36"; W: 34"–76"
- b. Tapered D: 23"/29", 24"/30", 29"/23", 30"/24"; W: 58"–76"
- c. 90° D: 23", 24"; W: 40"–76"
- d. 120° D: 23"/24"; W: 34"–64"

Note: desk widths are parametric to 1/16"

Independently tested and compliant with applicable U.S. and Canadian safety standards.

SURFACE MATERIALS

Legs available in:

-  7241 Arctic White
-  7207 Black
-  7360 Merle
-  4799 Platinum Metallic

Worksurfaces are available in laminate, veneer, OLL, custom stain.

Colors are representative and may vary slightly from actual material. For further options, visit us online.

CABLE MANAGEMENT

Cable riser

Cable basket

Cable brackets

Grommet

PRIVACY OPTIONS

Privacy and modesty screens are available to connect to the integrated rail.

Modesty panels are available in laminate and veneer in widths from 34" to 76". Widths are parametric to 1/16".

SUSTAINABILITY

At its heart, sustainability at Steelcase is about people. It's about creating and supporting the economic, environmental and social conditions that allow people and communities to reach their full potential.

Research and insights direct our path. It's not only about creating goods, it's about creating good. It's not only about creating value, it's about living our values. It's not just about reducing our footprint, it's about expanding our reach. It's about creating lasting and meaningful change to enable the long-term wellbeing of current and future generations.

Innovative products and solutions result. In the development of our products, we work to consider each stage of the life cycle: from materials extraction, production, transport, use and reuse, until the end of its life. We demonstrate performance through third-party verified certifications and voluntary product declarations.

Steelcase's sustainability promises, actions, and results are communicated in an annual Corporate Sustainability Report.
