

MON ONCLE

by Mermelada Estudio

DESCRIPTION:

Mon Oncle is a reinterpretation of the classic concept of a barbecue. Closed, it's an elegant briefcase with character and a vintage feel. A briefcase with a surprise. As, open, it is a portable tabletop barbecue: innovative, hard wearing and very useful.

It can be used at home, on the terrace or balcony, or take it to a picnic. It is easy and quick to dismantle, clean and storage.

The whole structure is perforated with tiny holes are designed not only for aesthetics. Those holes allow the air to flow making it more powerful and the grill hotter and making sure that the case doesn't overheat.

We suggest you to use coconut shell ecological charcoal for its properties: There's no flame, it retains heat and generates very little smoke.

MATERIALS:

Structure: Steel and polyester paint finish

Grill: Stainless steel AISI 316

Inside trays: Steel covered in vitreous enamel

Strap: fabric and leather handle.
