

# Away from the Desk

A dynamic & extensive  
upholstery system

orangebox

## Product Description

Away from the Desk (AftD) is a soft upholstery system designed to answer the rapidly changing needs of the workplace as we migrate away from personal desks with their fixed and tethered technology towards shared, collaborative spaces and furniture.

AftD answers the need for more diverse configurations for both personal work and teamwork. Multiple specification options – for individual use, or for two, four or six people – can be further configured with larger, more open and more inclusive collaborative working configurations at lounge, table or café height.

AftD's high back design provides refined acoustic and visual privacy, and offers an upright, ergonomically controlled seating position more reflective of a task seat posture. It also provides multiple specification options for large and small work surfaces, and can meet a wide variety of power, data and monitor requirements.

With the help of our clients, their designers and specifiers, AftD is helping to transform office environments and working practices. And, just as the 'Hoover' brand gave birth to the verb 'to Hoover' (though we wouldn't dare to go as far as comparing their stories!), AftD has become an industry archetype, used as a verb to describe being able to work increasingly away from the desk.

**Top** – AftD Group, **Bottom** – AftD Group

## Product Specification

### Standard Product Description

**Frame:** Plywood & Hardwood frame with glued & screwed units.

**Glides:** Adjustable & linkable glides with non-marking elastomer foot.

**Edge Details:** Laminate with tapered edge as standard. [Table tops are 1 inch thick].

**Table Leg:** Finished in Black or Silver.

**Table Top Finishes:**

Laminate in Cherry, Oak, Walnut, Maple, or White.

Tapered screens can only be used on the end of a configuration.

Modular units are linked via the glides.

Every Away from the Desk configuration must be supplied with a layout drawing to avoid possible order errors.

### Optional Upcharges

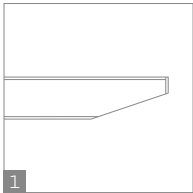

**Power:** Base or Arm power options available.

**Media Booths:** Table column and foot - Black foot and Chrome column.

**Monitor:** Tilting Monitor Brackets available as an upcharge on Media Den Units. Monitor Brackets support a single screen up to 32 inches / 44lbs. [Digital Monitor not included]

Grade Selection

Modular Units

Modular seating units have up to 4 upholstery choices.

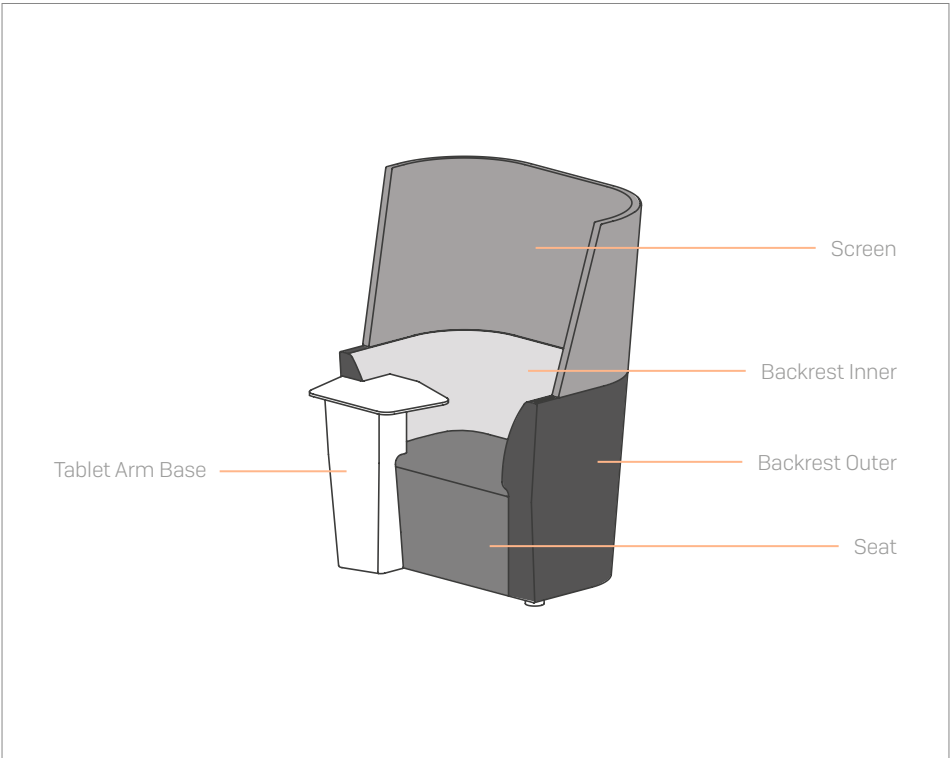

These choices are stated in the diagram opposite.

Detached Seating

As with the modular units above, the main body of the detached seating is split into 5 upholstery choices.

Some stand alone seating units have the addition of an integrated tablet arm base as a separate upholstery choice.

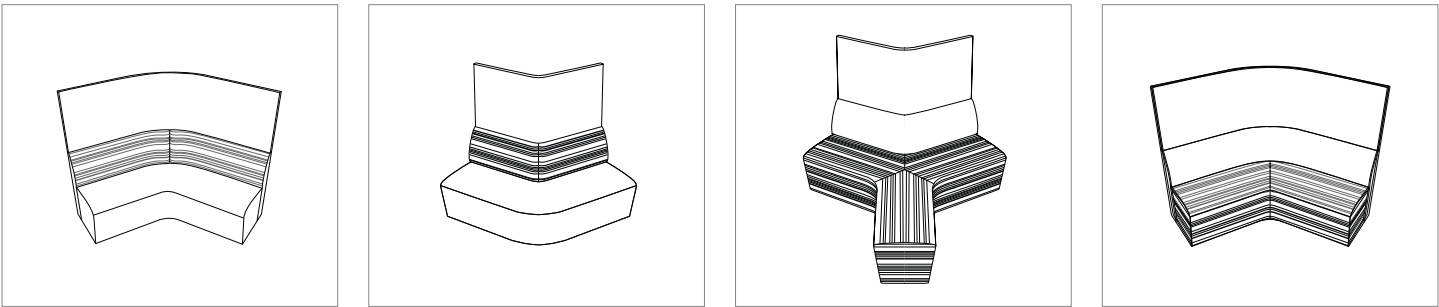

Grade Selection

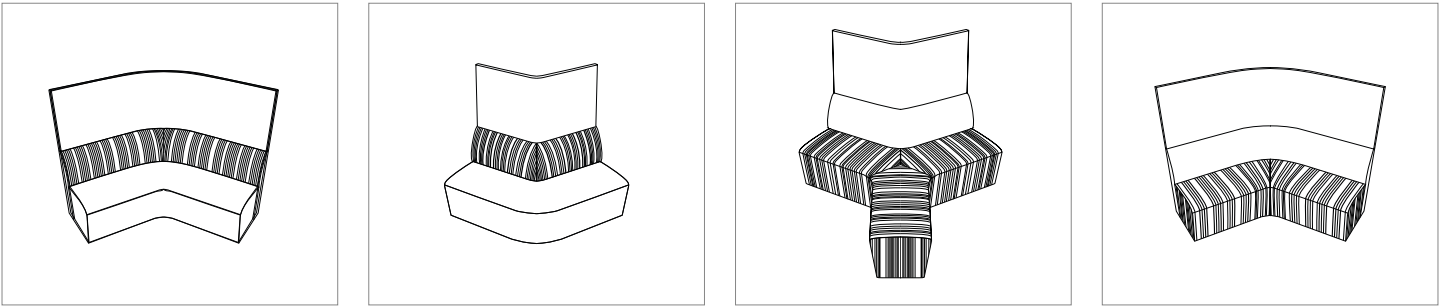

Striped, patterned or plaid Grades are only available for specification on the seat or backrest inner portions as illustrated below.

When selecting Grades with regular patterns for Away from the Desk, panels will be cut by hand to ensure the pattern matching is as accurate as possible. This is due to the Grades tendency to wrap as it is upholstered across a curved surface.
