

# INSTALLATION GUIDE

PRODUCT: SAGA

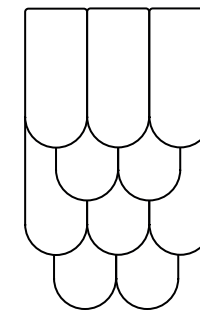

Draw a level line on the wall to mark the top row, and mark the center.

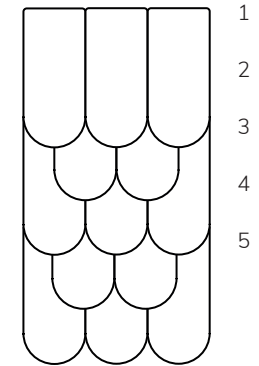

Repeat for each row underneath.  
(10.5 cm / 4.13 in distance in-between)

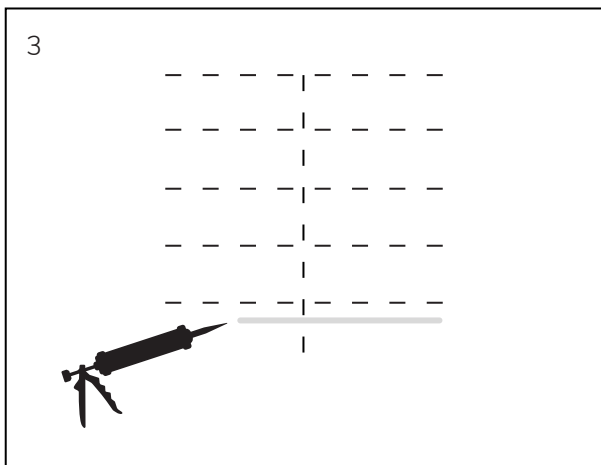

Ending with **even**  
row number

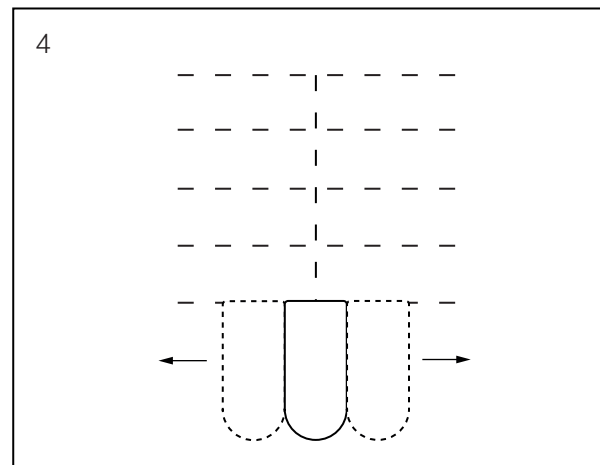

Ending with **odd**  
row number

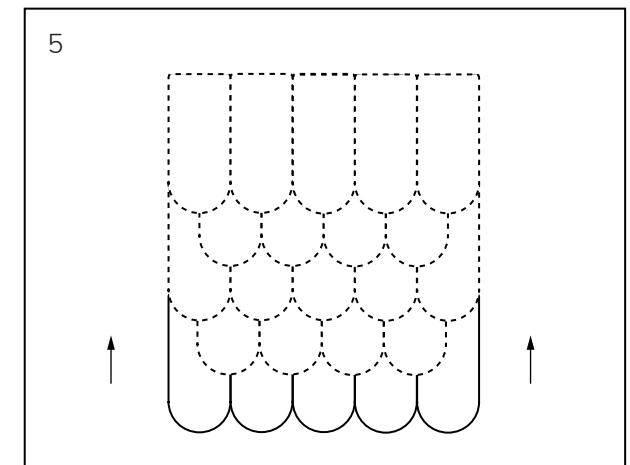

The ending will differ depending on the amount of rows.

Apply a line of construction adhesive about 2-3 cm / 1 in below the bottom line.

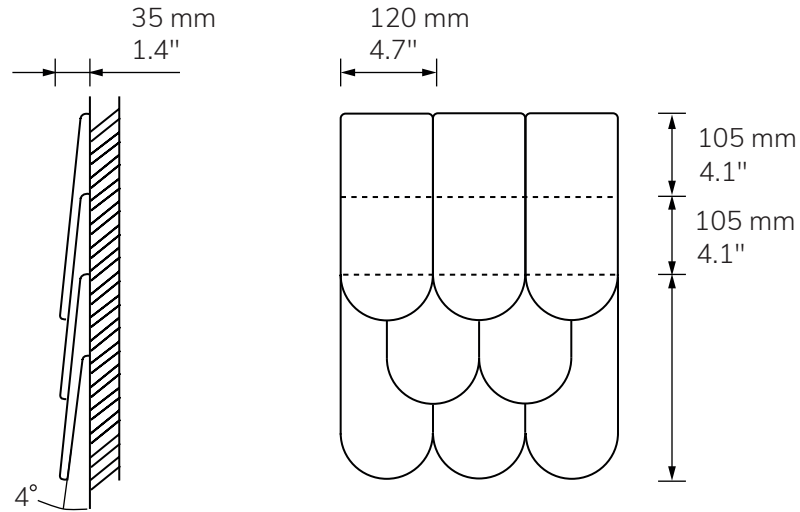

Push tiles against construction adhesive starting from the center and moving outwards.

Repeat for each row and continue upwards.  
Let completed installation dry for 24h.

## DIMENSIONS

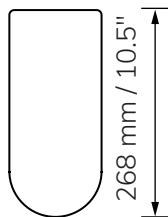

### Total height of installation

Length of shape in bottom row +  
Amount of rows above x 105 mm

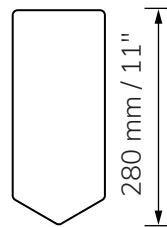

Rows are 105 mm apart  
(same for all shapes)

80 tiles cover 1 m<sup>2</sup> (7.4 tiles / sqft)

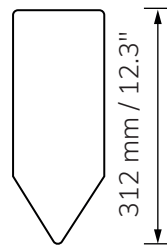

Round

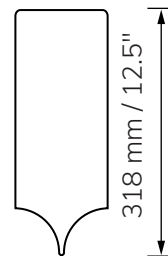

Hexagon
