# Steelcase Flex Collection

The Steelcase Flex Collection is a family of integrated products that work well on their own, but was designed with clever and thoughtful details that allow the entire collection to work best together to create different kinds of team spaces.

## SCREENS

The lightweight freestanding screens come in three sizes, are tackable and provide infinite possibilities for personal privacy, space division and keeping information visible. The magnetic edges allow for a variety of configurations and can be easily integrated across the Steelcase Flex Collection.

## MARKERBOARD SOLUTIONS

Create, share and showcase your work with Steelcase Flex Markerboard Solutions. Lightweight markerboards, a multi-purpose stand and mountable wall rails allow the team to surround themselves with information and keep everyone in the loop.

## CARTS

The cart family provides team personalization and storage, a place to display information, while also creating boundaries for space division. Designed for mobility, the team cart and board cart keeps all the team's essentials accessible and visible.

## ACOUSTIC BOUNDARY

The movable acoustic boundary provides flexible space division, acoustic privacy and allows for the integration of markerboards and screens to display information.

## HEIGHT-ADJUSTABLE DESK

Designed for mobility and function, the height-adjustable desk comes with integrated rollers that allow for movement, one-cord-out integrated power that hosts up to seven plugs, and user adjustable curved screens that can be configured by anyone for both privacy and modesty.

## TABLES

The family of standing and seated-height work tables can be used for a wide array of team activities -- from individual focus work to collaborative work; they can also be used in in-between spaces. Tables come with glides and optional wheels for easy movement, and pegs allow you to hang the power hanger, cable catch or other personal items.

## ACCESSORIES

The basket and cup are designed to hold markers, sticky notes and anything else the team needs to visualize their ideas. The basket and cup can be used across the collection to provide functionality, storage and personalization.
