

“OpenSeed’s meditation pods can play an important role in facilitating meditation in the workplace, residences, and commercial spaces. The pods are unique environments that beautifully integrate industrial design, technology, music, and guided meditations to ease stress and provide access to expanded states of awareness.

Given the mental health crisis we are facing, OpenSeed offers the type of solution that could help many people reap the vast benefits of meditation.”

- Dr. Deepak Chopra

# The Lotus

**A calm-inducing meditation pods that pr  
comforting space to relax restore, and  
reinvigorate the workforce.**

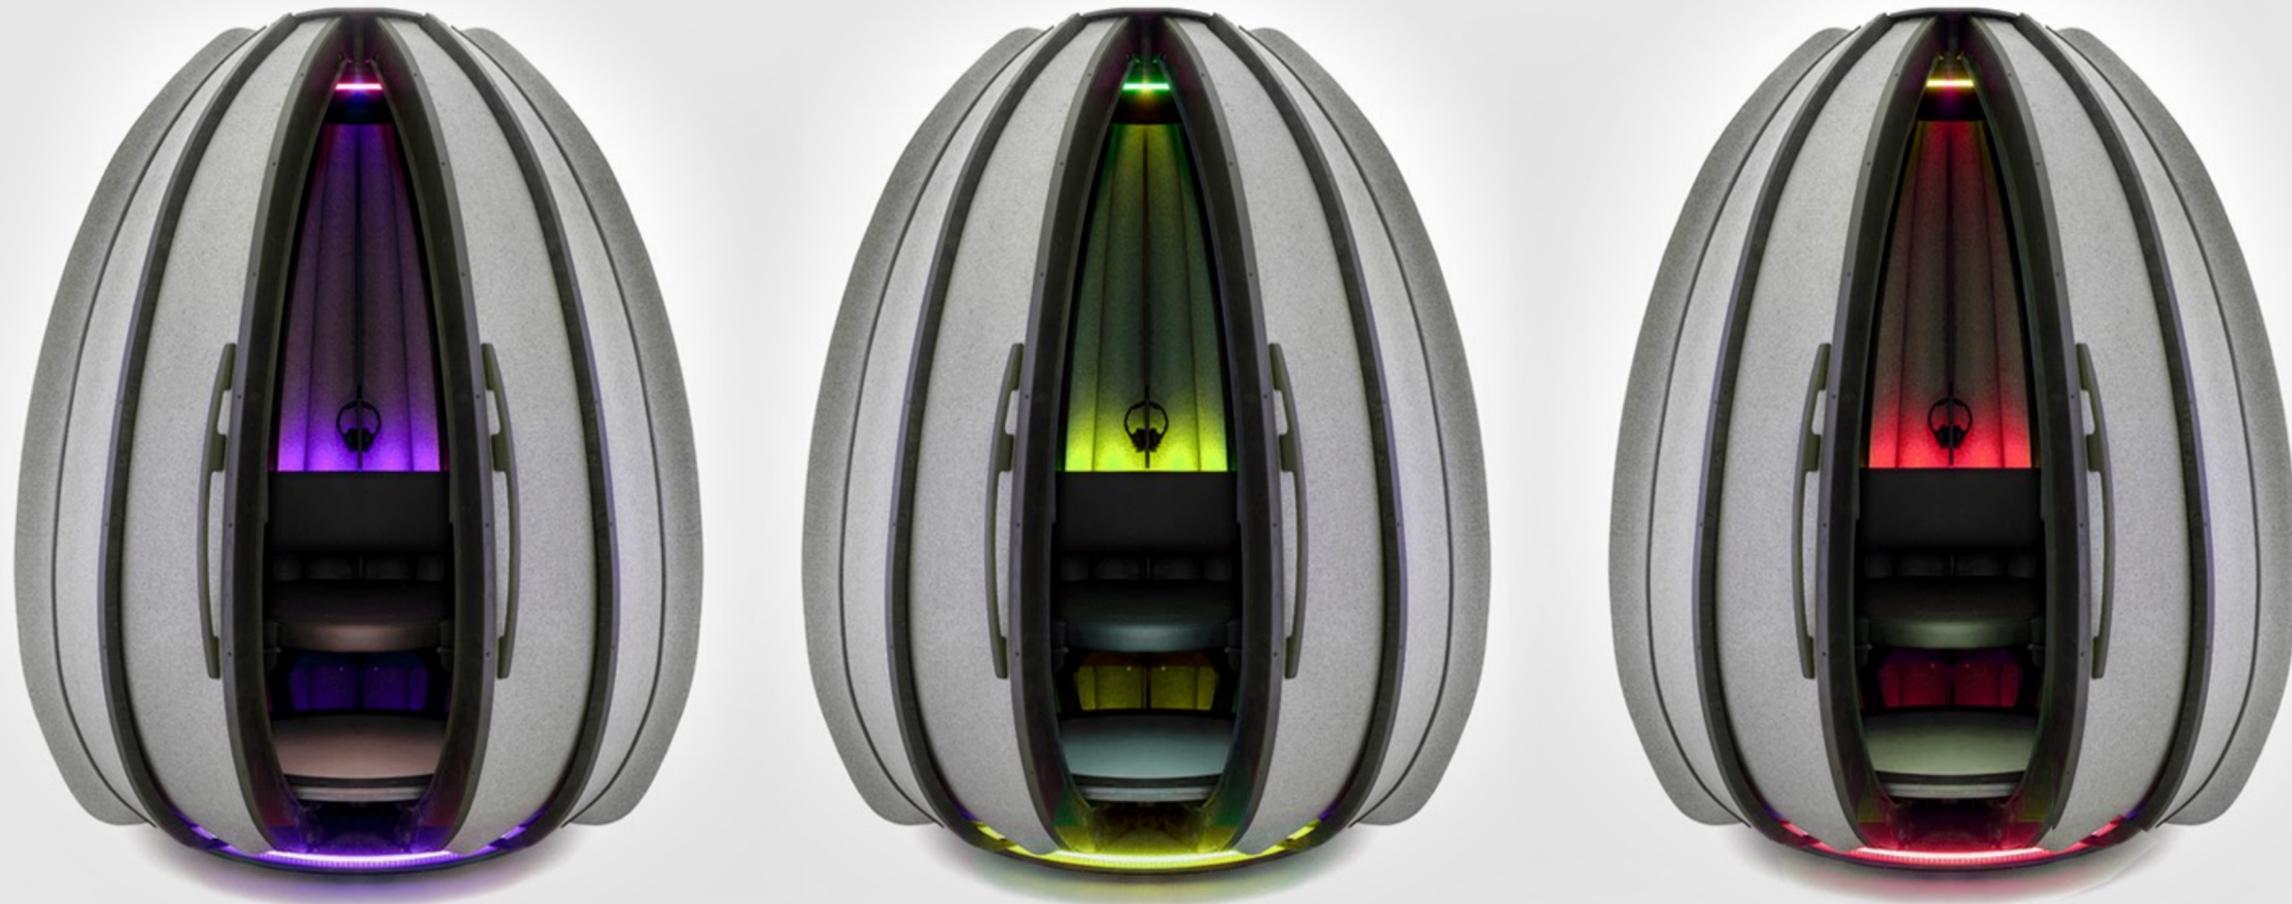

- **Effective** - Quickly induces calm and facilitates access to higher states of awareness, where creativity flows and productivity peaks.
- **Convenient** - A single solution that includes the space (pod), technology and content.
- **Affordable** - More economical than building a meditation room.
- **Beautiful** - Enhances the aesthetics of any space.

- **Unique** - Provides employees with an amenity/ experience they can only access in the workplace.
- **Personalized** - Fresh and personalized content encourages repeat, long-term usage.
- **Upgradeable** - features include premium content, VR/AR, and other immersive experiences in the future.

## **IMMERSE IN THE HEALING POWER OF LIGHTS**

LED light sequences are programmed to synchronize with audio, guiding individuals with chromatic cues for breath work and immersing them in the healing power of colors.

## INTERIOR CONTROL PANEL

### TOUCHSCREEN

Select from a menu of guided meditations, sound journeys, therapeutic sound frequencies, and other wellness content.

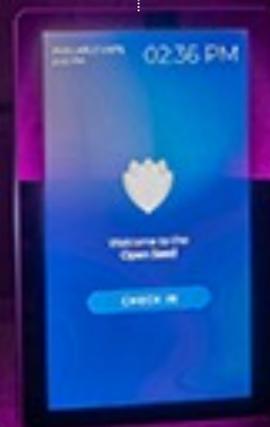

### ESSENTIAL OIL COMPARTMENT

A small compartment stores essential oils that can be paired with each experience.

The new model, available in 2023, will offer a dispenser and diffuser options.

### SPEAKERS

Two front speakers are part of a 5.1 sound system (2 back speakers and one overhead speaker)

## FEEL THE VIBRATIONS

Multi-channel concealed speakers in close proximity provide real-life immersive audio experiences, spreading therapeutic sound vibrations and transporting users to happy places of calm and peace.
