

# Mito sospeso 40 fix flat datasheet

Annular LED suspended luminaire with double-sided light emission and a diameter of 40 cm. There is a choice of two lighting effects. table (wide) for use over tables – wide light beam downwards and upwards. room (narrow) for freely suspended luminaire lighting – concentrated light beam directed downwards, diffused light directed upwards. The maximum suspension length is 350 cm (can be adjusted during fitting).

Version for hollow ceilings with embedded suspension wires and cover for fitting and inspecting the power supply unit. Can be controlled via "touchless control" (gesture control on the head), Occhio air or DALI; alternatively, dimmable via a trailing-edge phase cut dimmer\*. Connection to 230 V AC mains voltage. The color temperature can be continuously controlled via "touchless control", Occhio air or DALI from 2700 to 4000 K (optional 2200 to 3500 K) or can be preset (2700/3000/3500/4000 K).

#### technical data Mito sospeso 40 fix flat

properties	material	aluminium, painted, PVD-coated steel, plastic, optical silicone	
	height setting	max. 3500 mm (can be adjusted during fitting)	
	weight	2.0 kg	
surface	head	bronze, matt gold, rose gold, matt silver, matt white, matt black, phantom, black phantom	
	canopy	matt white, matt black	
Occhio »color tune« LED	average life time	>50.000 hrs	
	energy efficiency class (luminous efficiency)	G (57 lm/W)	
	power	LED 40 W (incl. Occhio power supply unit approx. 46 W, standby < 0.5 W)	
	color rendering index	igh color; CRI Ra 95	
	color temperature (color consistency)	2700-4000 K (2-step)	2200-3500 K (2-step 2200 K, 3-step 3500 K)
electricity	dimming	»touchless control«, Occhio air (optional), DALI or via trailing-edge phasecut dimmer*	
	connection	230 V AC	
	power factor power supply (cos φ1)	0.9	
	flicker/stroboscopic effect	1 (PstLM)/0.9 (SVM)	
	permitted operating conditions	max. 30°C for indoor use only	

dimensions: L 170 × W 89 × H 27

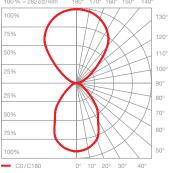

dimensions in mm

<sup>\*</sup> For a list of compatible dimmers, see www.occhio.com/dim\_en, trailing-edge phasecut dimmer, Occhio air and DALI not combinable

## Mito sospeso 40 fix flat lighting effects

#### table (wide)

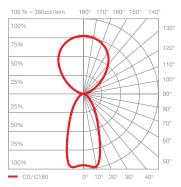

wide light beam (up and down), beam angle approx. 80° (down)

inserts: wide/flood

luminous flux : 40 W 2220 lm high color

UGR (4H8H) < 19

room (narrow) concentrated light downwards, beam angle approx. 50°, diffuse upwards

inserts: narrow/diffuse

luminous flux : high color 40 W 2140 lm

UGR (4H8H) < 19\*

<sup>\*</sup>The standardized indication of glare values (UGR value – 4H8H) is not quite significant for annular luminaires. In most real applications the result of an individual calculation is a UGR value < 19. Therefore, we recommend to carry out a calculation which can be prepared by our lighting design team (lightingdesign@occhio.de).

## control options

#### Control

#### Mito set box

sfera/sfera su/volo

#### sospeso/aura/sfera/volo:

COLOR (Sensor off) adjustable color temperature (4 steps) trailing-edge phase cut dimming possible

PRESET (sospeso/aura/volo) adjustable color temperature (4 steps) adjustable up/downlight ratio (5 steps) trailing-edge phase cut dimming possible

#### PRESET (sfera)

color temperature adjustable (4 stages) light intensity adjustable (5 stages)

#### SENSOR

SENSOR

»touchless control« (gesture control) switching, dimming, up/down fading\* »color tune« (color temperature continuously adjustable) no external dimming possible

luminaires, groups and scenes

»air« + »touchless control« (Bluetooth-

sospeso/aura/sfera/volo:

# Mito sospeso 40 fix flat DALI connection diagram

A maximum of 32 Mito sospeso units can be assigned to each DALI circuit.

The Mito sospeso requires two DALI addresses per luminaire, which enables control of the top and bottom sides via their own respective DALI address. The maximum output is reached if both DALI luminaires (top and bottom side) are set to maximum brightness (40 W = 20 W up and 20 W down; 60 W = 30 W up and 30 W down)

The Mito sospeso units can be organized into as many as 16 groups and equipped with an additional 16 scenarios (predefined settings).

Using a DALI short address, they can be actuated and configured individually. In addition, the bi-directional data transfer lets users query the state/status of individual luminaires.

You can find more detailed information at www.occhio.com/dali.
