

Mito terra var datasheet

Linear LED free-standing luminaire with double-sided light emission and a continuously adjustable height from 190 cm to 220 cm (body). Asymmetrical light pattern for linear illumination of tables or counters/workstations – wide, anti-glare light beam directed downwards and upwards. An automatic mode is available for Office applications: Measurement of ambient light by »ambient light control« and automatic control of brightness according to the desired settings. The »presence sensor« of the light allows switching by absence or presence in the room. Connection via plug-in power supply (converter) to 230VAC / 50Hz mains voltage, head can be removed for maintenance purposes. Power max. 70 W, control via »touchless control« (gesture control at the head), »body sensor« at the luminaire unit, »ambient light control« (ambient light sensor at the head), »presence sensor« (motion sensor at the head) or with Occhio air. The sensors »touchless control« + »body sensor«, »ambient light control«, »presence sensor« can be deactivated via Occhio air app.
