

Border

A low & high liner
upholstered bench

orangebox

Product Description

As its name suggests, Border provides a neat way of dividing up spaces. Its simplicity and precise modularity has ensured its continuous success in diverse spaces in both café areas and within varied open-plan spaces.

The liner design combines an upholstered bench and a worktable at both work and café height, allowing the unit to be combined with complementary Smartworking and Network Landscape chairs and stools. The table structure at both heights has an integrated pullout power/data module, enabling it to become an effective additional work area.

Top – BORDER-02, **Bottom** – BORDER-05

Product Range
