

OVERVIEW

The Oodle Soft can be added onto any Oodle to allow for extra comfort while still providing the same movement. A sturdy rotation lock keeps the stack-and-lock system securely fastened. The Oodle Soft can also be used as a standalone floor cushion for collaborative learning.

Pair the Oodle Soft with the original Oodle. The Oodle Soft has the same connection and will fit right on top. This will give the student a softer sit, while still featuring the flexible seating movement of Oodle.

Extra rocker base is available to fit Oodle Soft

MATERIALS

The base is made of polypropylene plastic and available in a platinum finish. The Alphabet vinyl fabric has been tested with 1 million double rub test. This test represents students sitting and getting up and down over and over. We want to guarantee the fabric will hold up without quickly getting holes from use.
