CRESCENDO

PENDANT LIGHT

Crescendo takes shape by weaving a custom pattern of acoustic material onto a steel frame. The textural nature of the pendant lends itself to a range of applications – balancing hard spaces and finishes or complementing soft furnishings.

Crescendo is fabricated with acoustic fabric by Autex. Made from a minimum of 60% recycled material, Autex is a non-woven fabric that won't zip or fray; it is also moisture resistant; and as an extra bonus, its acoustic properties offer a functional feature for the Crescendo pendant.

MADE IN MELBOURNE, AUSTRALIA
