

Steelcase®  
LEARNING

Elbrook

The background is a dark teal color with various organic, fluid shapes in lighter shades of teal and grey. These shapes are scattered across the page, some overlapping. Thin, white dotted lines meander across the background, creating a sense of movement and flow.

# Move. Gather. Learn.

---

Active learning is best supported in environments that are adaptable and unrestricted. So we created Elbrook, a collection defined by its fluid form and practical innovation. These tables, with their strategically inset legs and low-profile bases, are crafted to maximize space and encourage seamless interaction, ensuring the focus remains firmly on what's important: engaging in and facilitating effective learning.

# Solving Problems for the Future

---

Active learning is more than a pedagogy—it's a necessary and trusted evolution of education that's effective, and it's here to stay. The problems our learners need to solve will be very much different from that we solve today. Mastering the usage of AI, learning the impact of climate change and managing complexity and uncertainty are skills our learners need to master better than our generation.

Educators have critical roles to play to enable the next generation to learn differently. They know solving complex problems is often not simply the role of an individual. The ability to learn in groups and solve problems in breakout modes helps students learn differently. For educators today, the classroom is more than just a space for students to memorize information. It's somewhere for students to belong, to practice creativity, and to learn how to collaborate, think critically and communicate effectively.

# Real Spaces, Real Challenges

In the quest for effective learning, educators often encounter physical obstacles that hinder the fluidity and adaptability required in modern classrooms. The traditional setup can impose limits that are at odds with the dynamic nature of active learning.

## SPATIAL CONSTRAINTS

"Classroom space is a precious commodity. We find ourselves in a constant struggle to adapt, often with furniture that's just not designed for flexibility. The challenge of reconfiguring spaces for various activities is all too real."

## OBSTRUCTIVE FURNITURE

"The very elements that are supposed to support learning can sometimes become barriers. Traditional furniture layouts often restrict free movement, making it hard for me to engage with students and for students to interact with one another."

## PROHIBITIVE DESIGN

"The typical classroom table, with its sprawling legs, presents a hurdle for group collaboration. It's vital for the furniture to facilitate rather than frustrate the gathering of minds."

# Fluid classrooms

The Elbrook Collection redefines classroom furniture, offering pragmatic solutions for learning in motion. Designed to adapt to the shifting needs of educational spaces, it supports the diverse ways in which students and educators interact. More than mere furniture, Elbrook is an essential tool in the academic environment, enhancing accessibility and promoting the active learning process.

## ACCESSIBLE DESIGN

Elbrook tables provide a welcoming environment from every angle, ensuring that technology and resources are easily at hand for both students and educators.

## MAXIMIZED SPACE

With inset legs and low-profile bases, Elbrook offers a more efficient use of classroom space, fostering comfort and a more open, navigable learning area.

## EASE OF MOVEMENT

Equipped with unobtrusive in-line wheels, Elbrook tables are designed for effortless repositioning, supporting a range of educational scenarios from collaborative group work to focused solo tasks.

# Form and Function

Embracing a minimalist approach, Elbrook delivers a subtle yet impactful presence in the classroom. Its organic contours encourage open dialogue and easy interaction, supporting a culture of inclusion and active participation. It's about more than just furniture—it's about creating environments that foster academic excellence.

## CAMPUS-WIDE DESIGN

Elbrook embodies the essence of campus-wide coherence, offering architects and designers a sophisticated toolkit for unifying learning spaces. With its elegant lines and thoughtful proportions, the Elbrook Collection transcends traditional boundaries, inviting creative freedom to orchestrate environments that reflect an institution's vision while promoting cross-disciplinary collaboration.

# Features for Progressive Learning Environments

## ORGANIC SHAPES

The understated elegance of Elbrook's design promotes a conducive atmosphere for collaboration and intellectual engagement.

## VARIED ELEVATION OPTIONS

Elbrook's range of table elevations supports diverse educational activities and postures, enhancing both comfort and functionality in learning environments.

# Tailored Solutions

Educational environments demand furniture that excels in durability, practicality, and design. The Elbrook Collection allows decision-makers to select versatile pieces that address the changing needs of educational spaces while reflecting the institution's commitment to progress and inclusivity.

Integrating Elbrook into your campus furnishing strategy equates to investing in a range of furniture that adapts to your evolving educational strategies. It ensures that investments made today continue to benefit teaching and learning into the future. The collection not only keeps pace with educational trends but anticipates them, meeting essential demands for long-lasting use and flexible configurations. Its design not only matches institutional aspirations but actively fosters an innovative and inclusive learning atmosphere.

Steelcase's broad educational portfolio works in concert with the Elbrook Collection, ensuring comprehensive furnishing solutions for areas that need to be just as versatile as they are active. Together, they ensure that Elbrook meets various needs, from enhancing active learning environments to providing reliable furniture for everyday use.

Elbrook integrates sustainability into its design and manufacturing, reflecting Steelcase’s commitment to the environment and the future of education. Thoughtful selection of durable materials that can be recycled make Elbrook a choice that educators and students can feel good about.

**ECO-CONSCIOUS MATERIALS AND DESIGN:**

**Sustainable Composition:**  
Crafted with a blend of steel, nylon, acetal, and particle board, Elbrook incorporates 10% post-consumer and 45% pre-consumer recycled content, emphasizing our dedication to reducing waste.

**Built to Recycle:**  
At the end of its long and useful life, 58% of the Elbrook collection is recycable, ensuring that your commitment to the planet extends beyond the classroom.

**CERTIFICATIONS THAT MATTER:**

Elbrook meets the SCS Indoor Advantage Gold standard for furniture, representing the pinnacle of indoor air quality and safety (SCS-IAQ-04139).

Tested for:  
ANSI/BIFMA 5X.5-2021  
GB/T 3325-2017  
GB 18584-2001

# Create Natural Learning Spaces

The Elbrook Collection reimagines the higher education landscape by seamlessly integrating nature's balance with architectural finesse. Designed for the rigors of advanced learning, Elbrook offers a sophisticated palette for spaces where future leaders and thinkers converge.
