

Match

Design by Jordi Vilardell & Meritxell Vidal

Unique and unrepeatable, Match is much more than a light fixture. This innovative product stands as a new lighting concept based on co-creation. Using the product configuration software CREA, Match allows you to create structures arranged chaotically, automatically planned on-line and adapted to fit into the room and the space available. The result are infinite artistic configurations based on thin rods of aluminum and LED light terminals, forming a light sculpture that illuminates central themes of space and interior decoration.

Application:
Hanging Lamps.

Installation type:
Recessed.

Inner diffuser:
Polycarbonate.

Materials:
Head: Aluminum.
Rods: Steel.
Canopy: Steel.

Finish:
 03 White (RAL 9016)
 18 Graphite (RAL 7016)

Electrical characteristics:

LED 2700 K. CRI >80. Each LED 2.1W. 312 lm.

Driver included. Constant Current. 120-277V. 50/60Hz.

Dimming /12: 0-10V.

Special order options available

- Configuration layout at vibia.com
