

HSKS60 / HSKS40

HUSK / 600/400

SCONCE

Architecturally considered, the Husk Collection is a refined study in material and form. A tactile micropulp shade—biodegradable and made from recycled fibre—is paired with artisan-formed slumped glass to create a quietly sculptural presence. Designed for disassembly and end-of-life recovery, Husk supports circular, closed-loop principles through both process and material.
