

## Balance series

Designed by Michael H. Nielsen, Denmark

---

The Balance dining table, designed by Michael H. Nielsen, unites bold lines and design language with elegant and natural materials. The strong legs in FSC™ certified oak function as a solid foundation for the luxurious stone tabletop, which is broken up by the solid oak extension leaves when extended. A striking dining table with refined proportions and details.

### Meet the designer

My style is characterized by keeping the focus on the detail and "edge" that separates my designs from the crowd. One of my biggest influences is to register how much diversity there is among people and try to meet the very different needs that it creates. I've always been fascinated by the craftsmanship and the interaction between craftsman and designer. Good design is what gives meaning and value to the people who use it.
