

## Berlin series

Designed by Hertel & Klarhoefer, Germany

---

Simple, distinctive details merged in beautiful, durable craftsmanship – made from FSC™ certified oak. The German design duo, Hertel & Klarhoefer, created Berlin with a precise approach to the design process. A series of elegant, minimalist coffee tables and benches that draw clear references to the Scandinavian nature. Constructed using visible mortise-and-tenon joints that emphasise the design's heritage and inspiration, while the sleek frames add a distinctly modern edge. The bench features a fitted cushion for softer seating.

### Meet the designer

Berlin is often our inspiration. We like it as it is: metropolitan, creative and direct. But as well travelling around, in other countries, seeing things that strike your eyes is where creative ideas are being born... Sometimes the best ideas come in the most unexpected situations! First of all we are inspired by the materiality of things. That's why we work very early on materials and prototypes in scale 1:1. At the beginning of a design project usually there is a conceptual idea that we are trying to realize as soon as possible in models and prototypes. But sometimes some of our design projects have a strong conceptual character that allows them to appear in different ways depending from their materiality
