

Cape series

The Cape Parasol features a modern design with a large round canopy that stands out to any patio or garden. Its innovative side leg allows for maximum space efficiency, letting you arrange furniture without the hindrance of a centre pole. With an adjustable canopy angle, you can easily adapt to the sun's position, ensuring optimal shade throughout the day. Designed with optimal air circulation in mind, it allows a gentle breeze to flow through, keeping your area comfortable. Included is a protective cover, and with its durable aluminium frame, the Cape parasol is lightweight yet resilient, making it perfect for long-lasting use season after season.
