

Eida series

Designed by Martin Lauritsen,

The Eida coffee tables combine simple, sculptural shapes with the striking patterns of natural travertine. Creating an expression that is vibrant and serene all at once. Every table is unique and can be combined in a selection of heights and sizes to create modern arrangements with a wonderful, architectural expression.

Meet the designer

According to industrial designer Martin Lauritsen, a designer's most important task is to develop durable products. High-quality products that last for generations. In addition to creating value and joy in our everyday lives. "Good design is like good music. Both can create positive moods and emotions through their melodies, rhythm, shape, colour, materials and more. I find the emotional qualities that aesthetics can create very interesting, and this is a driving force in my design process, just as much as creating good functional solutions."
