

## Pana series

Designed by Ferriani Sbolgi, Italy

---

The Pana dining table expresses the natural strength and beauty of oak, taking you from casual weekday dinners to fine dining in an instant. Exquisitely crafted with an extension rail, solid oak legs, and a smooth veneer tabletop. The optional extension rail is also available for later installation, if you change your mind. Designed by the Florence-based design duo, Ferriani Sbolgi.

### Meet the designer

The Italian design studio, Ferriani Sbolgi, is driven by experiments and a cooperative approach to the design process where both designers agree on a direction and outline before transforming into new creative designs. Their design language is based on sleek silhouettes and clean stripped-down lines and details, and their products seek to communicate a certain emotion with the viewer and user. Each new design is seen as an opportunity for experimentation, and they ascribe fundamental importance to finding materials and ideas that will add value to their final design. They seek the new, the bold and the different, but always with timeless taste and quality craft in mind. A striking balance achieved in an effortless manner shown in their beautiful work.
