

## Tuk series

Designed by Büro Famos, Germany

---

With an elegant yet contrasting design language, Tuk tables add a special and intuitively appealing edge to your interior design. Tuk is available in several materials, such as marble and travertine, where the wooden legs twist into the metal plate at the top to create a playful, vibrant look. An elegant mix of materials that invite the eyes to explore, and where the materials also tell a story of refined craftsmanship and playful ideas. Tuk is also available in several heights, which makes it possible to combine several tables for a harmonious but dynamic impression.

### Meet the designer

It is important for us to design long lasting products. So to speak: Taking the right material for the right application and creating an appealing good shape is important to make the owner wanting to use a product for a long time. This automatically binds pleasant memories and results in a long-lasting product. We like to take into account different points of views - regarding design and technical aspects. Constant questioning is one of the greatest skills we need to do over and over again. We like to think our ideas through. From the initial idea to final product.
