

## Elope series

Designed by Allan Nøddebo, Denmark

---

The Elope mirrors are designed by Studio Nøddebo and inspired by the Danish archipelago of more than 400 islands. Crafted with a frame in FSC™ certified oak, carved into rounded, organic shapes that can be mounted in various directions to fit any wall.

### Meet the designer

My style is clean, honest and user-oriented. In a balanced relationship between observation and function, aesthetic and emotions, we define and analyse the DNA of a given object. Our aim is to create objects that improve your everyday life - indefinitely. One of my greatest influences is when I go to flea markets. I always find objects from another decade that remind me about how people used to live. It makes me reflect on the way we live today and understand the objects that surround us in a new perspective. It's very useful and often inspires me to think in new directions.
