

Kuma series

Designed by Glismand & Rüdiger, Denmark

Crafted to gather – designed for decades. Kuma is a timeless, FSC™-certified dining table that brings people together. With space for up to 20 guests when fully extended, it's made for those big moments. You can add up to four extension leaves, with both these and the support legs elegantly tucked away in carefully crafted compartments inside the table. The tabletop is made using a 20 mm engineered oak construction – a three-layer solid wood construction that makes the most of every piece of oak, ensuring durability and a beautifully refined surface. This thoughtful construction uses materials with care. Kuma combines enduring craftsmanship with functionality, making it ideal for both everyday meals and grand celebrations. Available with or without extension leaves.

Meet the designer

Bolia was born in Denmark, and so was the renowned design duo Glismand & Rüdiger – an origin that serves as main source of inspiration in their approach to furniture design. When designing furniture, the design duo seeks inspiration from the vivid Scandinavian nature and materials while honouring the proud design tradition built on simplicity, elegance, craftsmanship and sustainable materials. “We share a passion for Scandinavian design and natural materials. Sustainability is the starting point for every new design we create. All the way from the first sketches to the final product, cause what we believe the most, is designing beautiful products that are built to last and survive trends.” For Glismand & Rüdiger Scandinavian design isn't a label, it's a commitment in their design-work. It's something to be interpreted in contemporary and new ways, and something to be proudly honoured.
