

Archer series

Designed by Ferriani Sbolgi, Italy

Experience refined elegance with the Archer armchair, its solid wooden frame held together by discreet metal screws, keeping leather or canvas upholstery perfectly in place. The sculptural armrests offer both a beautiful silhouette and comfort, while the carefully angled back provides excellent support for long, relaxed moments, inviting you to sit and linger just a little longer. Tailor the chair in leather in your choice of colour or changeable canvas, allowing you to make the chair uniquely your own while balancing strength and comfort.

Meet the designer

The Italian design studio, Ferriani Sbolgi, is driven by experiments and a cooperative approach to the design process where both designers agree on a direction and outline before transforming into new creative designs. Their design language is based on sleek silhouettes and clean stripped-down lines and details, and their products seek to communicate a certain emotion with the viewer and user. Each new design is seen as an opportunity for experimentation, and they ascribe fundamental importance to finding materials and ideas that will add value to their final design. They seek the new, the bold and the different, but always with timeless taste and quality craft in mind. A striking balance achieved in an effortless manner shown in their beautiful work.
