

Calma series

Designed by Studio Nooi, Italy

The Calma armchair invites you to slow down and settle in. The design is FSC™-certified and crafted from solid wood with refined joinery details, it presents a light, graceful silhouette while preserving the strength and integrity of the structure. The upholstered seat adds warmth and comfort to the clean wooden frame. Timeless yet contemporary, the Calma armchair is designed not only to be seen, but to be lived with – a quiet presence that brings balance, comfort and understated character to any space. Placed in a reading corner, it becomes a natural and welcoming place to pause.

Meet the designer

Studio Nooi was founded by Giulia Pesce and Ruggero Bastita in Torino, Italy. Giulia and Ruggero built their approach to design while studying and working as designers in Italy and Denmark. Nooi derives from the Italian word “noi”, meaning “us” – the idea being that design is never an individual act but rather a collaborative process, involving designers, companies, users, artisans and technicians. Nooi’s designs are always the result of good cooperation between people and influenced by society, art, nature and cultural heritage, and the designers are closely involved at every stage of the project development.

Test and certifications

FSC™ C165134 (Forest Stewardship Council) is an international organisation that advocates for responsible management of the world's forests. FSC-labelled products contain wood materials from forests that meet strict environmental, social and economic standards, helping to protect biodiversity, ecosystems and local communities.

EN 16139 - L1: General use. Furniture – Strength, durability and safety – Requirements for non-domestic seating. EN 1022 - Domestic furniture - Seating - Determination of stability.

Tested according to the Toxic Substances Control Act - TSCA Title VI - to ensure wood-based materials do not emit excessive amounts of formaldehyde, and that they comply with permitted limits.

CAL TB 117-2013 – Determination of flammability resistance
