

Lelou series

Designed by Ramos Bassols, Spain

Gather around the Lelou dining table, where every meal becomes a moment to linger, laugh, and connect. Crafted from solid, FSC™-certified wood, its sleek, geometric lines and triangular legs give it a sculptural presence without overwhelming the room. Designed to harmonise effortlessly with all our dining chairs, Lelou balances strength and elegance. Generous proportions invite long dinners and lively conversation with family and friends, while everyday meals become cherished moments framed by timeless, understated design.

Meet the designer

We believe our products are sober-looking, formally balanced and attractive. We love to lavish attention on details as we believe that the quality of products is often judged by the quality of their details. We try to make products with clean lines, yet warm and attractive for the public. When we design, we simply want to create seductive products we'd love to have in our own homes. We have special concern for architecture and crafts which are elements that inspire us beyond the trends of the moment.
